Sales@Rennerwood.com / www.Rennerwood.com

For more than 35 years, we have grown successfully in RootMaker® containers for customers across the country. As we move forward, we will be adding new products and new sizes, as well as updating our company systems that will improve your purchasing experience.

In talking with customers, we have discovered some holes in the supply chain for many items that we can successfully grow. If you are having difficulty in finding certain items, ask us about producing them – whether by seed or cuttings. You never know, we might have a source for seeds or cuttings, or we might have it growing here on the farm.

Check our catalog at rennerwood.com or email us for our most current updated spreadsheet. *Continuing the tradition of quality plant material and friendly customer service ... Rennerwood.*

Our Commitment to You:

- **Exceptional quality** - the industry leader in superior root systems: —
- **RootMaker® Certified Plants.**
- **Expert advice** - Friendly, knowledgeable staff available as your reliable resource for industry questions and growing tips.
- **Innovation** - We continue to experiment with advanced methods of growing, and conduct trials of new and improved plant varieties.
- **Your success is our greatest accomplishment** - We are proud partners with many of the best growers in the industry.

ACER

	60 ct.	32 ct.	1g	3g
<i>barbatum floridanum</i> Southern Sugar Maple	-	2.50	8.00	14.75
<i>buergerianum</i> Trident Maple. To 30'. Bronze to purple new growth maturing to glossy dark green. Orange-red fall color, acid soil. Beautiful, exfoliating bark. Zone 5.	-	2.50	8.00	14.75
<i>rubrum</i> 'Brandywine' Brandywine Red Maple To 40'. Cross of October Glory and Autumn Flame. Brilliant red-purple autumn color. Prefers slightly acidic soils but adaptable. Produces only male flowers. Zone 4.	-	3.00	8.00	14.75
<i>rubrum</i> 'Summer Red®' - Summer Red® Red Maple To 40'. Burgundy-red new foliage, fall foliage yellow to orange or purple. Adaptable to wide range of soil and climatic conditions. Head Ornaments. Zone 5.	-	3.75	8.00	14.75
<i>rubrum</i> var. <i>drummondii</i> - Drummond Red Maple 🌳 To 40'. Native to Southeast. Beautiful fall color and spring color when seeding. Acid soil. Zone 6.	-	2.50	8.00	14.75
<i>truncatum</i> - Purplebloss or Shantung Maple To 25'. New growth reddish-purple. Fall color yellow to orange to red. Can handle alkaline soil. Drought and wind tolerant. Zone 4.	-	2.50	8.00	15.00
<i>x freemanii</i> - 'Autumn Blaze®' Autumn Blaze Maple To 50'. Rapid-growing silver-red maple cross. Excellent orange and red fall color. Poplar Farms P.P.# 4864. Zone 3.	-	3.75	8.00	15.00
<i>rubrum</i> - Red Maple, Swamp Maple To 60'. New growth is reddish tinged. Fall color mostly greenish yellow, to yellow. Medium to fast grower, will handle low wet planting sites. Zone 8	-	2.50	8.00	14.75
<i>saccharinum</i> - Silver Maple To 60'. Fastest growing Maple. Bright green foliage above with silver/gray underneath. Shows a little color during fall. Zone 8.	-	2.50	8.00	14.75
<i>saccharum</i> - Sugar Maple	-	2.50	8.00	14.75
<i>AESCULUS pavia</i> - Red Buckeye 🌳 To 20'. Small clump-forming round-topped shrub or small tree. Dark green, lustrous foliage. Flowers April-May. Best in full sun and moist, well-drained soil, but tolerates shade. Native from VA to FL to LA and TX to Edwards Plateau. Pollinated by Ruby Throated Hummingbirds. Zone 4-8.	-	3.00		
<i>BETULA nigra</i> - River Birch 🌳 To 60'. Yellow fall color. Exfoliating bark reveals pink to white trunk. Full sun. Deciduous. Zone 4	-	2.50	-	(MT) 18.50

	60 ct.	32 ct.	1g	3g
<i>nigra</i> 'BNMTF' Dura Heat™ - Dura Heat River Birch To 40'. Glossy, green leathery foliage and dense canopy. Holds leaves longer than other birches. Good heat tolerance. Tree Introductions. From tissue culture. Zone 4.	-	3.85	-	*18.50 (TC) 20.00
<i>nigra</i> 'Heritage' - Heritage River Birch To 45'. Leaves are large, glossy and dark green. Exfoliating bark opens to white, salmon-white. From tissue culture. P.P. # 4409 Cully. Zone 4.	-	3.85	-	*18.50 (TC) 20.00
CALLICARPA americana - American Beautyberry Loose open shrub to 8'. Light lavender-pink clusters of flowers turn to brilliant purple berries. Zone 7.	-	2.50	8.00	13.50
CALLISTEMON lanceolata - Bottlebrush Seedling selection found locally. Very cold- and drought-tolerant. Blooms bright red spikey flowers in Spring and again in August. Small tree or shrub to 15'. Zone 8.	-	(MT) 2.50(MT) 8.00 (ST) 2.50(ST) 8.00	(MT) 16.00 (ST) 13.50	
<i>viminalis</i> - 'Red Clusters Bottlebrush' Vigorous small tree or shrub. Light green foliage and bright red flowers in spring. Drought, soil & cold tolerant. Zone 8.	-	(MT) 2.50(MT) 8.00 (ST) 2.50(ST) 8.00	(MT) 16.00 (ST) 13.50	
CARPINUS Caroliniana - American Hornbeam ➡ Also known as Blue Beech, Ironwood or Musclewood. Medium size tree to 30. Usually grown as multi-stem or brushy shrub. Performs well in moist soils. Prefers rich, slightly acidic soils. Native to Texas. Zone 3.	-	2.50	8.00	14.25
CARYA aquatica - Water Hickory Large tree maturing at 100'. It is a major component of wetland forests now in the southeastern U.S., and is considered important in cleansing drainage waters since the plant slows the flow during flooding, allowing segments to fall out of the water column. Zone 3.	-	2.50	-	14.00
CARYA Illinoensis - Native Pecan ➡ To 70-100'. Long-lived tree thought to have been planted by Comanche Indians. Prefers deep, moist well-drained soils. Nuts important as wildlife food. Zone 6.	-	2.40	- 6.00 (5g) 20.00	-
CELTIS laevigata - Sugarberry	-	2.50		
CEPHALANTHUS occidentalis - Buttonbush ➡ Rounded shrub to 6'. Glossy summer foliage with creamy - white flowers that endure for a long time. Zone 5.	-	2.50		
CERCIS canadensis - Eastern Redbud ➡ To 25'. Purple-red flowers cover the branches in spring. Zone 4.	-	2.50	8.00	14.75
canadensis var. texensis - Texas Redbud ➡ To 20'. Glossier leaves than eastern redbud. Red to pink spring flowers. Zone 6.	-	2.75	8.00	14.75

CHILOPSIS

linearis - Desert Willow 🌵

Small deciduous tree to 20'. Narrow light green leaves and beautiful trumpet-shaped purple flowers. Zone 7.

linearis 'Bubba' - Bubba Desert Willow 🌵

Strong form from San Antonio Botanical Gardens. Darker green foliage and muscular trunk and branching. Dark purple flowers. Zone 7.

linearis 'Burgundy' - Burgundy Desert Willow 🌵

Large shrub or small tree to 25'. Loose gangly growth habit. Burgundy, purplish-red colored flowers bloom on new growth June-Aug. Requires well-drained, dry soils. Drought tolerant. Zone 7.

CHITALPA *tashkentensis* 'Morning Cloud' - Chitalpa

A cross between Desert Willow and Catalpa. Small multi-trunk tree grows to 15' with a loose, open habit. Light pink flowers with palepurple throat on new growth. Prefers well drained soil; is drought tolerant. Zone 6.

CORNUS

drummondii - Roughleaf Dogwood 🌵

Small deciduous tree 16' at maturity. Creamy yellow flowers in early spring followed by cream-colored berries in Fall. Good for erosion control. Zone 4-8.

florida - Florida White Dogwood 🌵

Small deciduous tree 15-30' at maturity Deep green leaves turning dark red in fall. Creamy white flowers in early spring with red berries late summer. Best in acidic soils. Zone 5.

CUPRESSUS

arizonica var. *arizona* - Arizona Cypress 🌵

To 40-50' tall by 30' wide. Pyramidal habit with fine-textured foliage. Prefers dry, hot locations. Zone 7.

DIOSPYROS *virginiana* - Eastern/Common Persimmon 🌵

Up to 60'. Large fruit turning pinkish orange when ripe. Tolerant of diverse soil types. Zone 4.

ELAEOCARPUS *decipiens* - Japanese Blueberry

Large evergreen shrub to 40' tall. Pink to white flowers in late spring. Attracts bees, birds, butterflies. Zone 8-b.

ERIOBOTRYA *japonica* - Loquat

Medium-sized tree, 20'-30'. Large, dark green leathery leaves with white blooms late summer to early fall. Drought tolerant and attractive to bees, butterflies and birds. Zone 7-a.

<i>virginiana var. australis</i> – Sweetbay	-	(ST)2.75	(ST)8.00	(ST)15.00
To 90'. Evergreen to semi-evergreen. Lemony Flowers. Zone 6.			(MT)9.00	(MT)17.00 (4) 18.00
<i>virginiana var. australis</i> "Moonglow" R – Moonglow	-	(ST)3.80	(ST)8.50	(ST)15.00
Magnolia To 40'. Dark green with blue underside leaf, semi evergreen with upright growth. One of Cold hardest varieties. P.P. #12065 Cully. Zone 7			(MT)9.00	(MT)18.00
METASEQUOIA <i>glyptostroboides</i> - Dawn Redwood	-	2.50	8.00	14.00
To 100'. Beautiful exfoliating cinnamon bark. Rapid-growing deciduous conifer. Thought for many years to be a fossil. Zone 5.				
MORUS	-	2.50	8.00	13.50
<i>rubra</i> - Red Mulberry				
To 70'. Large dark green leaves turn subdued yellow in fall. Zone 5.				
<i>alba</i> – White Mulberry	-	2.50	8.00	13.50
To 50'. Male form, wide spreading crown, dark green leaves, Maple-like leaf, standard in industry. Zone 5				
MYRICA <i>cerifera</i> - Southern Wax Myrtle	-	(MT)2.75	(MT)8.00	(MT)14.50
Beautiful, wispy, broadleaf evergreen to 20'. Tolerant of salt. Can be planted in full sun or half shade. Zone 7.				
NYSSA	-	2.50	8.00	14.00
<i>sylvatica</i> – Blackgum				
To 100'. One of the best trees for fall color. Brilliant red to maroon fall color. Zone 4.				
<i>aquatica</i> – Water Tupelo	-	2.50	8.00	13.00
To 100'. One of the best trees for sites under water. Trunk bulges at base and tapers at top with open crown. Zone 6				
PINUS	-	2.50	8.00	13.50
<i>eldarica</i> - Afghan Pine				
To 50'. Tolerates poor soils, drought conditions. Zone 7.				
<i>elliottii</i> - Slash Pine	-	2.50	8.00	13.50
To 100'. Fast grower. Zone 7.				
<i>pinea</i> - Italian Stone Pine	-	2.50	8.00	13.50
To 40'. Suited for thin rocky soils and infrequent rains. Drought tolerant. Tolerates salty soil or sea spray. Zone 8.				

<i>taeda</i> - Loblolly Pine 🌲	-	2.50	8.00	14.00
To 100'. Slower growing than slash pine but branches better. Zone 6.				
<i>thunbergiana</i> - Japanese Black Pine	-	2.50	8.00	13.50
To 60'. Dark green foliage. Good landscape character. Zone 5.				
PISTACIA <i>chinensis</i> - Chinese Pistache	-	2.75	8.00	14.75
To 40'. Brilliant orange to red fall color. Drought tolerant. Good urban tolerance - native to China. Zone 6.				
PLANTANUS	-	2.50	8.00	13.50
<i>occidentalis</i> - American Sycamore	-	-	-	-
To 130'. Massive tree. Easily distinguished from other trees by mottled exfoliating bark, leaving the surface mottled and greenish-white, gray and brown. Native to wet land areas. Rapid growth habit. Zone 4.				
<i>mexicana</i> - Mexican Sycamore	-	-	-	17.50
To 50'. Native to Mexico, drought and leaf scorch blight tolerant. Shows great promise to adapt and is fast becoming the Sycamore to use in the Southwest. Zone 7				
PRUNUS	-	2.75	8.00	14.00
<i>caroliniana compacta</i> - Compact Cherry Laurel 🌲	-	-	-	-
To 30'. Pyramidal-oval shape, dense foliage with small leaves. Disease resistant. Evergreen. Zone 7.				
<i>caroliniana</i> - Cherry Laurel	-	2.50	8.00	14.00
To 40'. Pyramidal-oval to round, dark green foliage year around. Great for wind breaks and hedges. Zone 7				
<i>mexicana</i> - Mexican Plum 🌲	-	2.75	8.00	14.00
To 25'. Prolific bloomer in very early spring. Fragrant white flowers. Dark red to purple fruit in early summer, excellent for wildlife and jellies. Adapts to soil conditions. Drought tolerant. Deciduous. Zone 6.				
PUNICA	-	-	-	-
<i>granatum</i> 'Wonderful' - Wonderful Pomegranate	-	2.50	8.00	14.00
Attractive shrub or multi-trunk small tree to 20' Glossy green leaves, showing red-orange flowers from June to October which produce large fruits that remain on the plant until December. Requires full sun and well drained soils. After established heat and drought tolerant. Zone 7.				
QUERCUS	-	2.50	8.00	14.00
<i>acutissima</i> - Sawtooth Oak	-	-	-	-
To 60'. Has distinctive leaves. Fast growing, yellow to brown fall color. Zone 4.				
<i>alba</i> - White Oak 🌲	-	2.50	8.00	14.25
To 100'. A massive, long-lived tree. Red to orange to wine-red fall color. Zone 3.

bicolor - Swamp White Oak

To 60'. Native to swampy locations. Requires acid soil. Yellow to red-purple fall color. Zone 3.

buckleyi - Texas Red Oak

To 30'. Distinctive leaves turn scarlet in fall. Good in rocky soil. Zone 6.

falcata - Southern Red Oak, Spanish Oak

To 70-80' with rounded form. Tolerates poor, dry soil. Fall color is brown with a tinge of red. Zone 6.

falcata var. pagodaefolia - Cherrybark Oak

To 110'. Faster grower of the red oak group and among the largest. Zone 7.

fusiformis - Texas Live Oak

To 40'. A slightly smaller oak tree with more erect branching and a less wide crown. Typically found on dry sites, and considered to be the hardiest evergreen oak. Cold tolerant. Zone 6a.

laceyi - Lacy Oak

Small tree to 30'. Blue-green deciduous foliage. Likes alkaline soils. Hardy in low water conditions. Zone 7.

laurifolia - Laurel Oak

To 60'. Common throughout coastal Plain in the South, occupying sandy well-drained soils. Rapid growth. Seeds from trees originating at Shady Grove Plantation. Zone 6.

lyrata - Overcup Oak

To 90'. Acid soil. Orange to red fall color. Adapts well to poor sites. Zone 5.

macrocarpa - Burr Oak

To 80'. Broad shade tree with large acorns. Tolerant of varying soils and moisture conditions. Performs well in alkaline soils. Zone 3.

marilandica - Blackjack Oak

To 30-40'. Scrubby tree. Tolerates dry, sandy or sterile soils. Wood used for posts, fuel, and wildlife love the fruit. Zone 6.

michauxii - Swamp Chestnut Oak

Majestic oak to 120'. Does not like standing water but tolerates periodic flooding. Zone 5.

muehlenbergii - Chinkapin Oak

To 60'. Crimson to orange-yellow fall color. Drought tolerant. Performs well in alkaline soils. Zone 3.

nigra - Water Oak

To 100'. Dark red fall color. Semi-evergreen in South. Zone 6.

nuttallii - Nuttall Oak

To 100'. Brilliant red-maroon fall color. Acid soils. Zone 6.

palustris - Pin Oak

To 100'. Dark red fall color. Acid soils required. Zone 3.
